## **APPLICATION**

## **PURPOSE OF THIS FORM**

Complete this form to apply for incidental take permit coverage under the Yolo Habitat Conservation Plan/Natural Community Conservation Plan (Yolo HCP/NCCP) and submit electronically to your local planning office. The completion of this form satisfies the minimum requirements for permit coverage. The Yolo Habitat Conservancy ("Conservancy") encourages submittal of a preliminary application to your local planning office to ensure timely and accurate completion. Your local agency planning office also may request additional information to clarify or complete your application. Chapter 6 of the Permitting Guide provides instructions for form completion, available along with additional resourceson the Conservancy's web site under the "Permitting" tab. Please note if an application fee is required (see Screening Form, Box D), you should submit this fee to the Conservancy early in the application process. The Conservancy automatically adjusts mitigation fees by March 15<sup>th</sup> of each year to reflect current land prices and other expenses. If an applicant does not complete their application and issue payment prior to the fee update, the new fees will apply. The applicant may, however, pay mitigation fees early at the previous year's rate consistent with the Conservancy's Early Payment of Mitigation Fees Policy.

Regional-scale data related land cover, sensitive natural communities, and covered species habitats in Yolo is made available through the Yolo HCP/NCCP GeoMapper online mapping tool. The GeoMapper tool is accessible via the Resources tab of the Yolo Habitat Conservancy website below, although it is intended for informational purposes only, All HCP/NCCP permit applicants must have site-specific planning level surveys by a qualified biologist to determine actual land cover and sensitive natural communities and species habitats in and around a project site to determine the correct amount of land cover mitigation fees and project specific Avoidance and Minimization Measures (AMMs).

YOLO HCP/NCCP APPLICATION FORM

ВС	SOX D: PROJECT INFORMATION							
5		Provide a project description. Please refer to the Permitting Guide for details to include in the project description. Label as <b>Attachment 1</b> or indicate in this box the page numbers of the planning level survey where this information can be found.						
6		Provide a legible vicinity map of the project site and surrounding area (PDF). Refer to the Permitting Guide for more information about details to include on the vicinity map. Label as <b>Attachment 2</b> . Rather than a separate PDF, applicant may include the site plan in the planning level survey report.  If so, provide page number here:						
7		Provide a site plan that shows the proposed project site and surrounding area. (PDF and CAD or GIS-compatible). Refer to the Permitting Guide for more information about details to include in the site plan and details regarding the required CAD or GIS-compatible digital information to be attached. Label as <b>Attachment 3.</b> Rather than a separate PDF, applicant may include the site plan in the planning level survey report or other report. If so, attach report or excerpt and provide report name and page number here:						

## **BOX E: NATURAL COMMUNITY AND LAND COVER IMPACTS AND MITIGATION FEES**

Complete Items 1-26 below, referring to the Permitting Guide for calculation methods.

- Total fee amount for each land cover type will be auto-generated based on acreage amount (and for recurring temporary impacts, number of years out of the 50-year permit term the impact will occur).
- Temporary impact fee formula = land cover fee x area of temporary effect in acres x (F/50) where F = the number of years in which the activity will occur during the rest of the permit term (until 2069).
- Must include required land cover fee buffer area associated with the project. This is generally 10 feet for linear projects (e.g. roads, utility cooridors, pipelines) and 50 feet for all other projects. See Chapter 3 of the Permitting Guide.
- Fees will be updated annually, typically in March.
- Wetland fees are in addition to land cover fees.

Submit a planning level survey, including a field-verified land cover map and the name and qualifications of the qualified biologist(s) responsible for preparation of the report. Label as **Attachment 4.** Mapped areas shown on the site plan (**Attachment 3** in Box D, Item 7) should be consistent with the acreages entered below. Include photographs of temporary impact areas. Label photos as **Attachment 5**.

	Land Cover Permanently Impacted by Project (in acres)		l emporarily Pocurri		Fees (Auto Generated)

## **BOX F: CONDITIONS OF APPROVAL: CONDUCT PLANNING LEVEL SURVEYS**

Based on a planning level survey conducted by a qualified biologist using the land cover definitions described in the Permitting Guide in Table 2-1, indicate which sensitive natural communities and covered species are relevant to your project. Indicate below whether suitable covered species habitats are present (Column A) and, where applicable, if there is a need to conduct a more focused survey(s) for covered species (Column B) to confirm presence. Complete species-specific planning level surveys as needed consistent with protocols referenced in Appendix A of the Permitting Guide. Alternatively, covered species presence can be assumed, which would requires adherence to applicable AMMs and implementation of avoidance measures or preconstruction surveys. Attach all species-specific planning level surveys as **Attachment 7**. Describe, map, and tabulate impacts the project will have on each natural community and each species for which habitat is present. Impact calculations must correspond to the permanent and temporary impact calculations in Box E. Label as **Attachment 8**. Alternatively, the impact assessment can be incorporated into the planning level survey. **Important**: Be aware of the timing requirements for conducting a species-specific planning level survey (Table 6-1 in the Permitting Guide) to avoid project delays.

		A. Project Site Conditions Requiring Planning Level Survey	B. Species-Specific Planning Level Survey Results	C. Documentation
Se	ensitive Natural C	ommunities		
1	Alkali prairie and vernal pool complex	Are vernal pools or alkali seasonal wetlands present within 250 feet of project footprint?  Yes. Design project to avoid vernal pools or alkali seasonal wetlands by 250 feet or lesser buffer if approved by wildlife agencies (see Permitting Guide Table 2-1). Check Box G, AMMs 9 and 10. Go to Column C.  No	N/A	Map attached? (Attachment 4)  Yes No  If vernal pools or alkali seasonal wetlands are present on or near the site, provide map showing how project avoids these wetlands.
2	Valley foothill riparian	Is valley foothill riparian present within 100 feet of the project site boundary?  Yes. Design project to avoid valley foothill riparian by 100 feet or count all portions within 100 feet in the impact acreage (see Permitting Guide Table 2-1). Check Box G, AMMs 9 and 10. Go to Column C and provide map.  No	N/A	Map attached? (Attachment 4)  Yes  No  Provide map showing the valley foothill riparian in relation to the project footprint.
3	Lacustrine and riverine	Are any streams, rivers, lakes, or ponds within 25 feet of project footprint inside urban planning units, or within 100 feet of project footprint outside urban planning units?  Yes. Design project to avoid these resources by 25 feet inside urban planning units or 100 feet outside urban planning units, or count all portions within these distances in the impact acreage, unless a variance is allowed. Check Box G, AMMs 9 and 10. Go to Column C and provide map.  No	N/A	Map attached? (Attachment 4)  Yes  No  Provide map showing any streams, rivers, lakes, or ponds in relation to the project footprint.

6

BO	OX F: CONDIT	IONS OF APPROVAL: CONDUCT PLANNING	G LEVEL SURVEYS	
		A. Project Site Conditions Requiring Planning Level Survey	B. Species-Specific Planning Level Survey Results	C. Documentation
Se	nsitive Natural C	ommunities		
4	Fresh emergent wetlands	Are there any fresh emergent wetlands within 50 feet of project footprint outside urban planning units?  Yes. Design project to avoid these resources by 50 feet, or count all portions within 50 feet in the impact acreage. Check Box G, AMMs 9 and 10. Go to Column C and provide map). Survey period: May 31–September 30  No	N/A	Map attached? (Attachment 4)  Yes  No  Provide map of fresh emergent wetlands in relation to the project footprint.
Pla	ants			
5	Palmate- bracted bird's beak	Is suitable habitat present within 250 feet of the project site boundary? (see Permitting Guide Table 2-2)  Yes. Survey for palmate-bracted bird's beak consistent with Permitting Guide Appendix A. Check Box G, AMM 11. Go to Column B. Survey period: May 31–September 30  No	Is palmate-bracted bird's beak present?  Yes. Design project to avoid occupied habitat as described in AMM 11. Go to Column C.  No. Go to Column C.	Species-specific planning level survey report attached? (Attachment 7)  Yes No  Include report of species-specific planning level survey and map of habitat and any plants found in relation to project footprint.
Inv	vertebrates			
6	Valley elderberry longhorn beetle	Is there presence of elderberry shrubs in the project site or within 100 feet outside of the project site boundary that could be impacted by the project?  Yes. Identify and map all elderberry shrubs in and within 100 feet of project footprint with stems greater than one inch in diameter at ground level. For mapped shrubs that cannot be avoided, quantify the number of stems greater than one inch in diameter at ground level, and identify any such stems with valley elderberry longhorn beetle exit holes. Check Box G, AMM 12. Go to Column C and provide survey report. Survey period: Year-round  No	N/A	Species-specific planning level survey report attached? (Attachment 7)  Yes No

BO	BOX F: CONDITIONS OF APPROVAL: CONDUCT PLANNING LEVEL SURVEYS								
		A. Project Site Conditions Requiring Planning Level Survey	B. Species-Specific Planning Level Survey Results	C. Documentation					
An	nphibians								
7	California tiger salamander	Is there presence of California tiger salamander aquatic or upland habitat in the project footprint, or aquatic habitat within 500 feet of the project footprint?  Yes. Check box G, AMM 13. Is the habitat within designated critical habitat for California tiger salamander, as determined using the GeoMapper?  Yes. Design project to avoid designated critical habitat.  No. If aquatic habitat cannot be avoided by 500 feet, either conduct surveys as described in the Permitting Guide Appendix A, or assume species presence. Survey period: After rainfall, November 1 to May 15. Go to Column B.	Are California tiger salamanders present or assumed to be present in aquatic habitat?  Yes. If the species is present or assumed to be present, the Yolo HCP/NCCP will not allow any loss of occupied aquatic habitat until at least four new occupied breeding pools are discovered or established and protected in the Plan Area. Contact Yolo Habitat Conservancy. Go to Column C.	Species-specific planning level survey attached? (Attachment 7)  Yes No					
Re	ptiles								
8	Western Pond Turtle	Is western pond turtle habitat present in the project footprint?  Yes. Check Box G, AMM 14. A qualified biologist is required to evaluate whether there is moderate to high likelihood of western pond turtle presence. Go to Columns B and C.  No	Moderate to high likelihood of western pond turtle presence?  Yes: Check Box F for western pond turtle preconstruction surveys.  No	Habitat evaluation attached? (Attachment 7)  Yes No					
9	Giant Garter Snake	Is there any giant garter snake habitat (as defined in the Permitting Guide, Table 2-2) within the project footprint?  Yes. Design project to avoid or minimize impact on giant garter snake habitat to the extent practicable. If habitat cannot be avoided, see AMM 15. Check Box F for giant garter snake Preconstruction surveys, and check Box G, AMM 15.  No	N/A	N/A					

BOX F: CONDITIONS OF APPROVAL: CONDUCT PLANNING LEVEL SURVEYS							
	A. Project Site Conditions Requiring Planning Level Survey	B. Species-Specific Planning Level Survey Results	C. Documentation				
Birds							
10 Swainson's Hawk and White-tailed Kite	Are there suitable Swainson's hawk or white-tailed kite nest trees within 1,320 feet of the project footprint?  Yes. If nest trees cannot be avoided by 1,320 feet, check Box F for hawk and kite Preconstruction surveys, and Box G, AMM 16.  No	N/A	N/A				
11 Western yellow-billed cuckoo	Is suitable habitat present within 500 feet of the project site boundary?  Yes. If there are breeding records for the western yellow-billed cuckoo within ¼ mile of the project site from the previous three years (as determined by GeoMapper), then assume species is present. If there are no breeding records with ¼ mile, then either assume species is present or survey consistent with Chapter 6 of the Permitting Guide. See columns B and C. Check Box F for western yellow-billed cuckoo Preconstruction surveys and Check Box G, AMM 17.  Survey period: June 1-August 30.	Is western yellow-billed cuckoo present or assumed to be present?  Yes. If project cannot avoid occupied habitat by 500 feet, avoid take of nesting birds as described in AMM 17.  No.	Species Survey attached? (Attachment 7)  Yes  No				
12 Western Burrowing Owl	Is western burrowing owl habitat present on the project site, or within 500 feet of the project site?  Yes. Conduct planning level surveys for occupied habitat as described in Permitting Guide Appendix A. Go to Columns B and C. Survey period: February 1–August 31 during the breeding season; September 1–January 31 during nonbreeding season.  No	Are burrowing owls present?  Yes. Check Box G, AMM18. If burrows cannot be avoided, consistent with Table 2-3 in the Permitting Guide, Check Box F for western burrowing owl preconstruction surveys.  No	Species-specific planning level survey attached? (Attachment 7)  Yes No				

BOX F: CONDITIONS OF APPROVAL: CONDUCT PLANNING LEVEL SURVEYS							
	A. Project Site Conditions Requiring Level Survey	Planning	B. Species-Specific Planning Level Survey Results	C. Documentation			
13 Least Bell's Vireo	Is least Bell's vireo habitat present in 500 feet of project footprint?  Yes. Check Box G, AMM 19. An nesting records for the species will mile of the site from the previous years (determined using the Geo Yes. Assume species is procolumn B.  No. Conduct planning level as described in Permitting Appendix A. See Columns Survey period: April 1–Jun No	e there within ¼ s three pMapper)? esent. See el surveys, Guide B and C.	Are least Bell's vireo nests present or assumed to be present?  Yes. Check Box F for least Bell's vireo preconstruction surveys. Avoid take of birds as described in AMM 19.  No.	Species Survey attached? (Attachment 7)  Yes  No			
14 Bank Swallow  Is bank swallow nesting habitat pressproject site, or within 500 feet of the site?  Yes. Check Box G, AMM 20. Complanning level surveys as descripter Permitting Guide Appendix A. Godumns B and C. Survey period 1−August 15  No		project anduct bed in o to	Are nesting bank swallows present?  Yes. Check Box F for bank swallow preconstruction surveys. Avoid take of birds as described in AMM 19.  No.	Species-specific planning level survey attached? (Attachment 7)  Yes No			
Is tricolored blackbird nesting habitation the project site, or within 1,300 fer project site?  Yes. Conduct planning level sur described in Permitting Guide A Check Box G, AMM 21.
